The Materials KTN would like to invite you to its 2009 Annual General Meeting. This year’s event is entitled ‘Materials for a Safer World’ and will include presentations on all aspects of materials and technologies that can be used to enhance safety including defence, security and healthcare applications.

The event will be held at

Church House Conference Centre
Deans’ Yard, Westminster, London

Directions to the venue can be found at

www.churchhouseconf.co.uk

Registration for this event is free of charge for the first 100 participants, after which a registration fee of £75 + VAT will be charged. Online registration and further information is available on the website

www.matuk.co.uk/ktn2009_reg.htm

Supported by

www.materialsktn.net
Keynote speakers including defence, security and healthcare applications. Keynote speakers already confirmed are Dr Chris Mace, Director General, Science and Technology Operations, MoD and Barry Webb, Head, Design Against Crime Team, Home Office.

The morning will feature two parallel sessions, Materials Challenges for Defence Applications, organised by Team MAST and a Materials for a Safer World Expo in which member companies will be able to bring a small exhibition display and have a short presentation to showcase their research and products.

There will also be an exhibition in the main assembly hall throughout the day and ample time for networking.

The second parallel session in the morning will be a Materials for a Safer World Expo session in which several member companies will have the opportunity to display artefacts and posters and make a short presentation on the theme of Materials for a Safer World. Companies will include Advanced Composites Group, Copper Development Association, Easibind and Smith & Nephew.

Up to date details on this session can be found on the website www.materials-ktn.net
