

Acknowledgments

This study involved the time and effort of many organisations and individuals. The compilers would like to place on record their gratitude to all those who took part in interviews (in person and on the phone) and in the Workshop with such enthusiasm and willingness to contribute their knowledge and ideas.

The study, forming part of the UK Foresight Programme, was funded by the Department of Trade and Industry. The DTI also supplied a member of the Project Executive team, greatly facilitating effective action over the short timescale available for the task.
