Sponsored by

Waste to Fuels (rDME)

Wednesday 11th January 2023 – 6pm

Join us from 5:30pm for tea and coffee

Materials Processing Institute, Eston Rd, Middlesbrough TS6 6US

Tim Sutherland
Head of
Project
Development
(UK)
Circular Fuels

Circular Fuels Ltd (CFL) is a joint venture between Dimeta (a j-v of SHV Energy and UGI International) and KEW Technology (a sustainable energy solutions company).

CFL is a specialised project development company, which develops construction-ready rDME production plants using KEW's proprietary advanced gasification technology.

(rDME = renewable dimethyl ether)

**Approved
for CPD
2023**

A buffet will be served after
the lecture
