January Lecture

Our Fluid Nation

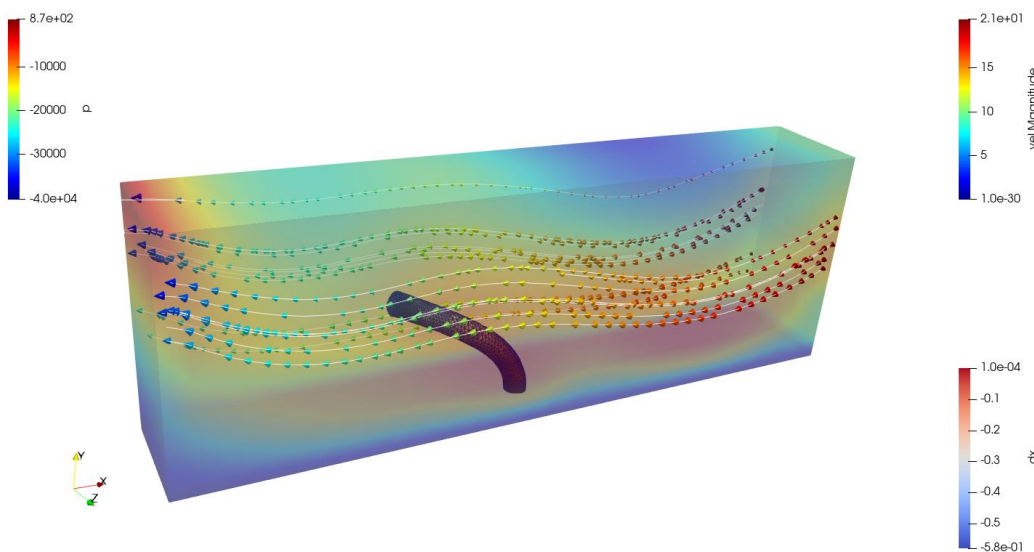

Sponsored
by

– How Fluid Dynamics Underpins Engineering and Manufacturing Industries Across the UK

Wednesday 10th January 6pm

Centuria Building, Teesside University TS1 3QD

Peter Jimack
Professor of
Scientific
Computing
School of
Computing
University of
Leeds

Understanding and controlling the flow of fluids is critical to many engineering and industrial sectors, with fluid dynamics estimated to generate £13.9 billion of output within the UK alone. This talk will provide an overview of the breadth of engineering research undertaken by graduate students at Leeds, with collaborators from sectors as diverse as manufacturing, transport, healthcare and energy.
