

# East Yorkshire Polymer Study Tour at Bericap

Friday 10 and Saturday 11 November 2023

We are delighted to be returning to Bericap for the East Yorkshire Polymer Study Tour this year. This free two-day residential course is linked to the 11-18 design & technology and engineering curricula and includes a tour round the Bericap site where you will see polymer manufacturing operations in action.

Overnight accommodation on Friday night and all meals and refreshments are included and we are able to offer delegates a contribution of up to £250 towards the cost of travel or supply cover. There are only 12 places available so book early to avoid disappointment!

For more information and to register click or scan the QR code.

The Polymer Study Tours were launched in 1987 to provide subject knowledge enhancement and promote positive perceptions of polymers to the secondary teaching community. They are organised and run by a Steering Committee comprised of the Worshipful Company of Horners' (the primary sponsor), the British Plastics Federation (BPF) and Institute of Materials, Minerals & Mining (IOM3). Sponsorship from the polymer industry allows us to keep these courses free of charge.
