History of the Mint

The Royal Mint is the world's leading export mint, making coins and medals for an average of 60 countries every year. However, its first responsibility is to make and distribute United Kingdom coins as well as to supply blanks and official medals.

The Royal Mint Museum is a registered charity, and an accredited museum, which is based on The Royal Mint site in Llantrisant, South Wales.

Established in 1816, the Museum has one of the finest collections of coins and related numismatic material in the world.
