TUESDAY 18TH APRIL 2023

18:45 – 20:30

SIDDICK, WORKINGTON, CA14 1JX

ABOUT HOLMEN IGGESUND PAPERBOARD

Workington Mill is an integrated pulp and paperboard Mill. Since 2013 it has been powered entirely by fossil carbon-free bioenergy. Bleached mechanical pulp is processed to suit the special demands of paperboard manufacture and is combined with purchased bleached chemical pulp into a multi-layered board construction, which is ideally suited to the demands of modern paperboard packaging.

Incada, the paperboard produced at Holmen Iggesund's Workington Mill, is of the highest quality and holds a prominent position in the market.
