

Wyn Griffith

Having begun his career with the then National Coal Board in the Barnsley Area Drawing Office. Wyn progressed into the amalgamated drawing office in the newly formed North Yorkshire Area and became involved with the introduction of the CAD drawing systems and also the coal face design aspects of the Mechanisation Department.

Specialising in these aspects, Wyn progressed becoming Coalface Design Engineer, holding this position into the privatisation of the coal industry before becoming Operations Engineer in the multi-disciplinary head office engineering department of UK Coal.

After 30 plus years' service in the coalmining industry, Wyn took up a new opportunity with Alan Auld Engineering Ltd in 2011, a specialist civil and mining engineering consultancy company with specialist knowledge in shaft, tunnelling and decline design, bringing his own skills and expertise to complement the existing skill base within the company.

Wyn is a Past President of the Midland Institute of Mining Engineers, a Chartered Engineer and Fellow of the Institute of Materials Minerals and Mining.
